Course overview	The subject aims to provide the student with a overview of the propaganda dimension of artistic creation in Spain, paying special attention to your address, guardianship and sponsorship from the political power. In this sense, heritage collecting is analyzed artistic as an activity of power, prestige and public and political projection. In second, students are familiarized with the sociocultural impact that heritage and its management have in the cultural identity of Spain in the present. Finally, the subject also deals with the value of equity in economic and productive terms, considering it as an industrial asset of first order.
