Quarter	Semestral
Credits	6,0 ECTS
Type	Optional
Department	Departamento de Gestión Empresarial
Coordinator	Blanca Moro
Schedule	4h/week (2 sessions 2 hours)
Office hours	Check with the teacher for the schedule
Course overview	The aim of the course is to provide students with the methodology and appropriate tools for analysis and management of innovation in the company as well as for exploiting the potential competitive advantage associated with it. More precisely, the role of innovation in achieving and maintaining competitive advantage of the company is valued. Given this reality, the determining factors in the development of technological strategies of companies, with a focus on the organizational conditions that favor the development and implementation of these strategies are analyzed. The advantages and disadvantages of the various possible structuring of the R & D organization are among the issues to be addressed in this regard. Also, different strategic for the exploitation and commercialization of technology alternatives are contemplated. All these decisions are particularized for the case of sectors characterized by the presence of market standards. Finally, it is expected that the students know th

DATOS ESPECÍFICOS DE LA ASIGNATURA

Contextualización de la asignatura
Aportación al perfil profesional de la titulación

The ability to innovate by the company is outstanding increasingly intense as essential to the survival of organizations that move in an environment of hypercompetition, regardless of the activities they undertake. Therefore, it is necessary that students have a space in which to reflect on this issue and to highlight the uniqueness of the management of the size of the company that surely will face one way or another in your professional performance. The importance of innovation in the company is not limited, therefore, those sectors of activity in technology intensive but today has no place in the competitive dynamics of any sector.

Prerequisitos

By nature, this subject has close and permanent links with "Business Strategy" which provides some basic pillars on which to build the debate about innovation in the company. More specifically and sporadically, connections with other subjects such as "International Business" is set (for the challenges that entails the management and transfer of innovation in the international context) and "Organization Theory "(by interest in the organizational conditions that favor innovation strategies).

Competencias - Objetivos

Competencias

GENERALES

CG01	Capacidad de análisis y síntesis	
	RA01	Comprende pormenorizadamente el material bibliográfico propio de la materia
	RA02	Ordena, clasifica y resume de manera lógica y coherente los contenidos del material bibliográfico propio de la materia
CG02	Resolución de problemas y toma de decisiones	
	RA01	Es capaz de identificar las limitaciones que afectan a la toma de decisiones y de buscar una decisión satisfactoria
	RA02	Toma decisiones y resuelve problemas prácticos haciendo uso de contenidos teóricos y conforme a metodologías reconocidas de resolución de problemas
CG04	Capacidad de gestionar información proveniente de fuentes diversas	
	RA01	Busca y utiliza documentación de distintas fuentes, proveniente de diversas vías, para sus actividades de aprendizaje, discriminando conforme a su valor y a la utilidad de cada una de ellas
	RA02	Desarrolla pensamiento crítico, cuestionando la información gestionada, generando conclusiones y puntos de vista propios
	RA03	Es claro, preciso, exacto y relevante en el uso de la información, profundizando con lógica e imparcialidad
CG06	Comunicación oral y escrita en la propia lengua	
	RA01	Se expresa por escrito con precisión, con corrección gramatical y ortográfica y de forma estructurada, inteligible y convincente

	RA02	Se expresa oralmente con soltura, fluidez y claridad y de forma estructurada, inteligible y convincente
	RA03	Se comunica eficazmente al idear soluciones a problemas complejos
CG07	Comunicación en una lengua extranjera	
	RA01	Busca e utiliza documentación para sus actividades de aprendizaje en idioma inglés, siendo capaz de realizar una lectura comprensiva
	RA02	Se expresa por escrito y oralmente en idioma inglés con precisión y corrección, con soltura, fluidez y claridad y de forma estructurada, inteligible y convincente
CG09	Habilidades interpersonales: escuchar, argumentar y debatir	
	RA01	Expone sus opiniones de forma razonada y sintética
	RA02	Se muestra abierto e interesado por las opiniones y aportaciones de los demás, enriqueciendo también así su propia argumentación
CG10	Capacidad de liderazgo y trabajo en equipo	
	RA01	Participa y contribuye de forma activa y profesional al trabajo de grupo, compartiendo con los otros miembros información, conocimientos y experiencias
	RA02	Contribuye al establecimiento de procesos cooperativos y a la consecución de acuerdos y objetivos comunes, con escucha activa y con comunicación eficaz
CG11	Capacidad crítica y autocrítica	
	RA01	Evalúa el trabajo y las ideas propios y los de los demás
	RA02	Es capaz de realizar el proceso de dar y recibir feedback de forma asertiva, mejorando la integración y la confianza de los grupos de trabajo
CG14	Capacidad para aprender y trabajar autónomamente	
	RA01	Busca y encuentra recursos adecuados para el desarrollo eficaz de sus actividades de aprendizaje
	RA02	Desarrolla las habilidades necesarias para la investigación independiente
CG17	Capacidad de elaboración y transmisión de ideas, proyectos, informes, soluciones y problemas	
	RA01	Argumentar de manera independiente y crítica sobre conceptos y teorías diversas
	RA02	Conocer y aplicar diferentes teorías, modelos y herramientas en la resolución de problemas prácticos
ESPECÍFICAS		

CEOPT01	Conocimiento y comprensión de los elementos dinámicos de la ventaja competitiva de la empresa asociados a la tecnología, la innovación y la información	
	RA1	Conoce y comprende las distintas teorías sobre gestión de los sistemas de información y los conceptos esenciales de la materia (tecnología de la información, inversión en tecnología de la información, sistema de información, ¿psicología de la tecnología¿, gestión de datos, de software y de hardware), relacionándolos con la realidad concreta del mundo empresarial
	RA2	Identifica los beneficios económicos de los sistemas de información y comprende las aplicaciones estratégicas de los sistemas de información
	RA3	Conoce y comprende el concepto de empresa digital y el de ¿modelo de e-business¿, así como el funcionamiento de los sistemas de información inter-organizativos e intra-organizativos en estas nuevas realidades organizativas
	RA4	Conoce y argumenta el valor de la innovación como fuente de ventaja competitiva para las organizaciones, así como los temas relevantes en relación a la gestión de la innovación
	RA5	Conoce y comprende los factores determinantes que intervienen en la formulación de las estrategias de innovación de las empresas, con especial interés en las condiciones organizativas que favorecen la formulación e implantación de dichas estrategias
	RA6	Conoce y valora críticamente las diferentes alternativas estratégicas para la generación, la explotación y la comercialización de la innovación, en el contexto de unas dinámicas competitivas cada vez más aceleradas, abiertas y colaborativas.

METODOLOGÍA DOCENTE

Aspectos metodológicos generales de la asignatura

Aspectos metodológicos generales de la asignatura

The course follows a practical approach, focused on the student, to promote his / her autonomy active participation during the learning process with the aim of helping him / her to develop necessary competences for the professional life. The following activities will be developed in order to develop the concepts and competences above mentioned:

Metodología Presencial: Actividades

Competencias

AF1. Master Classes where the professor will present the main contents in a clear, structured and motivating manner, in general supported with audiovisual resources. Main aspects will be outlined to support the student learning process, as well as suggestions from students are encouraged and considered. Professor lead exposure of the basics, with the active and collaborative participation of students, who discuss and debate dark spots or nuances that they are relevant to the correct understanding of the content. It will include case studies as backbone of the exposition of ideas and content, dynamic presentations and formal or spontaneous participation of students through various activities. Active participation in the classroom is an excellent tool to improve student learning involved and their comrades present in the

classroom. A productive learning environment requires all attendees to the classroom actively involved.

CG09, CEOPT01

AF2. Analysis and resolution of cases proposed by the teacher and / or by companies specializing in strategic consulting prestige. The starting material for such cases (material present, readings or reports, etc.) will be available in the Moodle of the subject. These cases will be oriented to permit, apply in practice the acquired theoretical knowledge and promote the development of argumentative student ability. The working sessions conducted in the classroom will be developed in-group. The activity of these classes will be to respond in writing to specific questions on real business cases. It is essential that, prior to each practice class, each student read and prepare the bibliographical material indicated for each session.

CG01, CG02, CG09,

CG10, CG11, CG17

AF3. Public presentations of specific issues or cases. According to the objectives of the subject, each group must present orally in the classroom a business news analysis related to the contents developed in the course and as provided in the schedule of the subject. These presentations will take place during school hours.

With the aim of giving rise to debate about the news presented, each group will close his presentation with the exposure of a question to the class.

In these presentations, each of the group members must participate and expects them to be able to communicate to the audience the concepts and relevant theories that have been identified in the news, and explain the logic strategic decision making for this question using the theoretical contents of the subject. **CG0 1, CG04, CG06**

Along with previous presentations, it is also contemplated that students have to expose in the classroom other research work conducted in groups, according to instructions and planning designed by the teacher.

Metodología	No	presencial:	Competencias
Actividades			
AF4. Individual study and exploring in more detail on the documentation that the student will do to comprehend rework and assimilate the scientific content with the goal of a practical application. Individual reading of texts and materials (books, reviews, articles, press releases, Internet documents, cases, etc.) related with the course. All materials and guides are available on the course website.			CG01, CG04, CG14, CEOPT01
AF5. Academic Tutorial individual or in groups in order to solve problems or doubts that could have arisen during the learning process.			CG01, CG04, CG06
AF6. Structured reading. Reading and analysis of relevant texts with various tasks that assess reading comprehension individually or in groups.			CG11
AF7. Collaborative learning. This group activity of seeking press articles (general and specialized) on news of current and relevant company that may be related to the contents of the subject.			
Each group must make a written comment on the news in question, including :			CG04, CG17

RESUMEN HORAS DE TRABAJO DEL ALUMNO

CLASSROOM HOURS			
Lecciones de carácter expositivo	Ejercicios y resolución de casos y de problemas		
15.00	50.00		
NON-PRESENTIAL HOURS			
Estudio individual y/o en grupo y lectura organizada	Ejercicios y resolución de casos y de problemas	Trabajos monográficos y de investigación, individuales o colectivos	Sesiones tutoriales
25.00	30.00	25.00	5.00
ECTS CREDITS: 6,0 (150,00 hours)			

EVALUACIÓN Y CRITERIOS DE CALIFICACIÓN

Evaluation activities	Evaluation criteria	Weight
Final Exam: with an essentially practical orientation, based on the discussion of practical case/s, it allows students to demonstrate their knowledge applied to solving problems related to the strategic direction of innovation.	Capabilities: Comprehension, Relational, Exposition Reasonin	50 %
Case Analysis: Practical applications of the contents, models and tools developed during the course proposed by the teacher and / or consultants of prestige. The final note of this activity will be the arithmetic mean of each one of the exercises / resolved throughout the academic year. News Analysis: Group work	Teamwork and practice application od theory. Depth analysis and understanding. Search and reporting.	35 %
Public Presentations Active Participation in class Attitude on individual work	Rigor. Time management. Active debate following the presentation. Participation. Proactivity.	15 %

Calificaciones

To pass the course in ordinary session, the student must pass each one of the activities that are part of the final grade of matter.

Exercises must be delivered in the exact conditions of place, date and time scheduled in the syllabus.

It is compulsory to attend all the working sessions. The student who does not attend any of these classes will get a score of "0" (zero) in the work group corresponding to that class.

For the purposes of normal development of the working sessions in the classroom, the teaching staff of this course assesses the student an active role by listening and participation, to keep connected with the reflections about the subject that are developed in the class. In this sense, the use of electronic devices, outside the moments for them in the context of the class, will be negatively considered.

In addition, plagiarism is understood as:

- No references.
- No notes that reveal the basis and the information resources of the work.
- No significant differences between the original and the students' work.

Those students who have obtained dispensation from school during the term should only deal with the activity of "final exam" and the final grade in the course will consist of 100% for the rating in such activity.

EXTRAORDINARY EVALUATION: For students who have not passed the exam in ordinary session. After passing this test, we will apply the weights established as a general evaluation rule. Also for students who do not exceed any of the other elements of the evaluation system. These students will have to pass the extraordinary exam and perform a series of complementary practices defined by the teacher also.

PLAN DE TRABAJO Y CRONOGRAMA

Activities	Date of realization	Delivery date
Analysis and resolution of real business cases: Proposed by the professor and /or by companies specialized in strategic consulting of recognized prestige	Each week of the course according to the development of the contents and planned in the schedule of the subject	Weekly delivery after completion and class discussion
News analysis: One analysis per group	Each week of the course (from the 2nd month)	Each week of the course (from the 2nd month)
Oral presentations of news analysis: One presentation per semester.	Each week of the course (from the 2nd month)	Each week of the course (from the 2nd month)
Final written exam: Application of knowledge to solve problems of the strategic management of innovation.	Work methodology developed throughout the course	Date and time established by the corresponding Head of Studies
