

GENERAL INFORMATION

Data of the subject	
Subject name	Algebra and Geometry
Subject code	DMA-IMAT-101
Main program	Grado en Ingeniería Matemática e Inteligencia Artificial
Involved programs	Grado en Ingeniería Matemática e Inteligencia Artificial [First year]
Level	Reglada Grado Europeo
Quarter	Anual
Credits	12,0 ECTS
Type	Básico
Department	Department of Applied Mathematics
Coordinator	David Alfaya Sánchez

Teacher Information	
Teacher	
Name	David Alfaya Sánchez
Department	Department of Applied Mathematics
Office	Alberto Aguilera 25 [D-116] 2409
E-Mail	dalfaya@icai.comillas.edu
Teacher	
Name	Estrella Alonso Pérez
Department	Department of Applied Mathematics
Office	Alberto Aguilera 25 [D-207] 2370
E-Mail	ealonso@icai.comillas.edu
Teacher	
Name	Manuel Adrián Rodríguez Leret
E-Mail	marleret@icai.comillas.edu
Profesores de laboratorio	
Teacher	
Name	Javier Rodrigo Hitos
Department	Department of Applied Mathematics
Office	Alberto Aguilera 25 [D-206]
E-Mail	jrodrigo@icai.comillas.edu
Phone	4221

Teacher	
Name	Manuel Villanueva Pesqueira
Department	Department of Applied Mathematics
Office	Alberto Aguilera 25 [D-210] 2360
E-Mail	mvillanueva@icai.comillas.edu
Teacher	
Name	Santiago Cano Casanova
Department	Department of Applied Mathematics
Office	Alberto Aguilera 25 [D-204] 2382
E-Mail	scano@icai.comillas.edu

DESCRIPTION OF THE SUBJECT

Contextualization of the subject
Prerequisites
<p>This course is an introduction to Linear Algebra and Differential Geometry. It focuses on providing the basic tools from the lineal algebra and differential geometry and in showing some of their applications in the engineering field. All the contents will be analyzed including several examples taken from the real life or other sciences like physics, economics, etc. The theoretical classes complement each other with the laboratory where the problems are solved using the computer.</p> <p>Basic knowledge of Algebra, Geometry and Real Analysis is required for attending this course.</p>

Course contents

EVALUATION AND CRITERIA

Evaluation activities	Evaluation criteria	Weight
Theoretical-practical exams: <ul style="list-style-type: none">Short continuous assessment tests (10%)Mid term exams (1.5-hour long) (25%)Final term exams (65%)	Incluir breve descripción	80
Evaluation of the experimental wok: <ul style="list-style-type: none">Practice exam with MATLAB (at the end of the second semester)	Incluir breve descripción	10

Maths Team Contest (MTC)	Incluir breve descripción	10
--------------------------	---------------------------	----

Grading

Incluyo el Grading de Álgebra GITI. Modifícalo brevemente para ajustarlo a las características de iMAT. Haz una descripción mucho más light que la versión en castellano.

- The grade obtained in the partials/final exams must be at least 4 over 10 to take into account the previous ponderations of the overall assessment criteria. In other case, the term overall grade will be the grade obtained in the exam.
- The final second term exam will only cover the contents taught in the second term, if the first term overall grade is at least 4 over 10. In other case, it will cover all the contents of the course.
- The following conditions must be accomplished to pass the course:
 - If the first term overall grade was at least 4, then the second term overall grade must be at least 4 over 10 and the average of both overall grades (first and second terms) must be at least 5 over 10.
 - If the first term overall grade was less than 4, then the second term overall grade must be at least 5 over 10.
