Depth of analysis and understanding. Search and presentation of information.	20

## Ratings

To pass the course in ordinary call, the student must pass each of the activities that are part of the final grade for the subject. Exercises that are NOT delivered in the exact conditions of place, date, will NOT be taken into account and time scheduled for each exercise, and communicated at the beginning of the course / semester in the subject schedule. Group work that is part of the teaching methodology may be subject to co-evaluation by the members of each group, according to a model proposed by the teacher, available in Moodlerooms.

For the purposes of the normal development of the work sessions in the classroom, the teaching team of this subject values that the student maintains an active attitude of listening and participation, that keeps him connected with the reflections that are developed around the subject class. In this sense, the use of electronic devices outside of the moments reserved for them in the context of the class will be considered negatively. Likewise, the exercise of plagiarism by students will be penalized; In this sense, we remember that plagiarism occurs when: The corresponding bibliographic references of the text used are not cited (whatever the source of information consulted, ALWAYS must be cited)

There are no citations or bibliographic references that show which author / s the student relies on in the development of their work.

The differences between the original information consulted and the student's own elaboration cannot be appreciated. Some words of the original information are changed but the information from which it was started has not been rewritten.

**In the June call, the grade will be 100% the grade obtained in the exam.**
