

## COURSE SYLLABUS

---

Course: **MENTAL HEALTH THROUGH VISUAL ARTS**

---

### COURSE DATA

Degree	Diploma in Humanities and Global Challenges
Academic Year	2024-25
Credits	6
Course type	Elective
Department	Psychology
Language of instruction	English
Name and email of instructor	Elena Serrano Drozdowskyj eserrano@comillas.edu

---

### SHORT DESCRIPTION

Emotional distress and mental health problems occupy a prominent place within art, both for being a means of expression and communication of this discomfort, for facilitating its understanding, and for constituting a potential avenue for therapeutic intervention.

This course aims to explore the relationship of visual art with mental health from different perspectives, and its potential as an educational, therapeutic and social awareness tool.

This course will also delve into how these media can be a very useful tool in the educational field to facilitate a deeper understanding of the subjective experiences of people with mental health problems and its psychopathology, as well as to combat social stigma.

Finally, from a theoretical point of view, we will examine the psychological aspects of the creative process that have a beneficial effect on mental health (foundations of art therapy).

---

---

## CONTENTS AND STRUCTURE

---

TOPIC 1: THE CONNECTION BETWEEN VISUAL ARTS AND MENTAL HEALTH

---

TOPIC 2: PSYCHOLOGICAL BASES OF CREATIVE PROCESS IN VISUAL ARTS

---

TOPIC 3: EDUCATIONAL APPLICATIONS OF VISUAL ARTS IN PSYCHIATRY

---

TOPIC 4: PSYCHOSOCIAL APPLICATIONS OF VISUAL ARTS

---

TOPIC 5: FOUNDATIONS OF ART THERAPY AND ITS CLINICAL APPLICATIONS

---

---

## METHODOLOGY

---

During the course, we will explore the relationship between visual arts and mental health through real life examples of artists and artistic interventions. We will also delve in the theoretical bases of creative process and its relation with mental health well-being and the foundations of art therapy.

Besides, through the analysis of works of visual art, especially of a plastic and cinematographic nature, we will learn to identify psychopathology and the elements of the artistic visual language that can facilitate a deeper understanding of the subjective experiences of people with mental health problems and its potential impact on social awareness.

Finally, through real case analysis, we will learn about clinical and psychosocial applications of art therapy.

---

---

## ASSESSMENT AND GRADING

---

Assessment type	Assessment criteria	Percentage
FINAL EXAM	Pass the exam with a 5 out of 10	50%
COURSEWORK	Discussion in class and upload in moodle	20%
HOME WORK	Individual and group homework. Class presentation and upload in moodle	30%

---

- Committing any serious academic misconduct, such as **plagiarism** of previously published material, or **copying** in the exam or any other graded activity, **will imply not being able to pass the course in the ordinary assessment period.**
- At the beginning of the term the professor will announce the office hours for the course. Tutorials are an essential part of the development of the course, and students may attend tutorials during the course within those office times, but it is recommended that they are arranged in advance with the professor.
- Any non-face-to-face learning activity that requires the submission of an assignment/document, etc. will be submitted by the student through Moodle, always in PDF format.
- To be able to take the final exam, students must not have missed **more than one third of the classes without justification.** If this requirement is not met, the student may lose the right to be assessed both in the ordinary and extraordinary assessment period (art. 93-1 of the General Regulations). Failure to attend to the first hour of a

two-hour lecture, means having missed the whole session in terms of attendance, regardless of whether or not the student the second hour.
