References	237

Acknowledgements

I would first and foremost like to express my deepest gratitude to Seán Molloy and Rubrick Biegon, whose intellectual guidance and encouragement was invaluable in the writing of this book. It is only through their continuous mentorship and kind support that I have been able to develop and complete this project. A special thanks also goes to my parents and grandmother for their continuous encouragement, as well as to Thomas Jenkins for his constant support. Finally, I would also like to thank all the friends and colleagues – particularly Marian Olmos, Maite Escalera, Rocio Birlanga and Giulia Grillo – who offered advice and encouragement throughout the journey that was writing this book.
