SPECIFIC DATA ON THE SUBJECT

Pre-requisites
None
Contribution of the degree to the professional profile
Dispute resolution is instrumental to the functioning of international business and must be managed accordingly by businesses. In choosing a particular method of dispute resolution, the main variables are cost, time, effectiveness and commercial considerations. International commercial arbitration is one of the available alternatives. A range of variables should be examined when including arbitration in a business' dispute resolution strategy. The course explores the main aspects of commercial arbitration that are relevant to the choice of arbitration as a method of dispute resolution.
