

FICHA TÉCNICA DE LA ASIGNATURA

Datos de la asignatura	
Nombre completo	Real Estate Transactions and Construction Law
Código	E000013129
Impartido en	M.U. en Acceso a la Abogacía y la Procura y Máster de Formación Permanente en Abogacía Internacional [Primer Curso]
Créditos	2,0 ECTS
Carácter	Obligatoria
Departamento / Área	Área de Derecho Internacional Privado

Datos del profesorado	
Profesor	
Nombre	Diego Agulló Agulló
Departamento / Área	Departamento de Derecho Privado
Correo electrónico	dagullo@comillas.edu
Profesor	
Nombre	Javier González Guimaraes Da Silva
Departamento / Área	Departamento de Derecho Privado
Correo electrónico	jgguimaraesdasilva@comillas.edu

DATOS ESPECÍFICOS DE LA ASIGNATURA

Contextualización de la asignatura

Competencias - Objetivos

BLOQUES TEMÁTICOS Y CONTENIDOS

Contenidos – Bloques Temáticos
COURSE SYLLABUS AND CONTENT
Content
AREA 1. Overview of the Real Estate and Construction sector
Topic 1. Introduction to the real estate and construction industry
1. Introduction
2. Real Estate transactions: overview of major operations and key elements

3. Object, principles and main content of Construction Law

AREA 2. Real Estate and M&A

Topic 2. Real Estate industry

1. Introduction. Evolution of the Real Estate market in Spain
2. Real Estate transactions: Legal framework and main players involved
3. Ownership of real estate and Spanish registration system
4. Lease agreements and loan and credit portfolios

Topic 3. Real Estate M&A and beyond. Case study

1. M&A structures and financing: asset deal, share deals and sale of the property
2. Tax, labor and insolvency considerations

1. Performance of construction contracts
 - 1.1. Variations
 - 1.2. Delay
 - 1.3. Damage
 - 1.4. Acceptance and quality
 1. Legal liability, insurance and warranties in construction claims
 2. Litigation and ADR methods applicable in construction and engineering disputes
 3. Case study: issues that may arise in construction/engineering projects and how to handle them

METODOLOGÍA DOCENTE

Aspectos metodológicos generales de la asignatura

TEACHING METHODOLOGY

General methodology of the subject

Contact hours methodology : Activities

Each class will be divided into two parts: in the first part, the professor will give a lecture (more theoretical) on the topic of the day. In the second part of the class, a case study (hypothetical or real) could be analysed and discussed with the students.

In two sessions, part of the class will be dedicated to explaining and discussing how to solve a real estate situation and a construction dispute based on the lesson commented during the course.

The last session will be dedicated to the final closed book exam.

Attendance is compulsory.

Outside class methodology : Activities

Every student is required to attend the teaching sessions and to do the preparatory work.

The Professor will provide the students with a syllabus comprising the most relevant materials (regulations and case-law) and a concrete schedule of review for these materials.

EVALUACIÓN Y CRITERIOS DE CALIFICACIÓN

SUMMARY OF STUDENT WORK HOURS

NUMBER OF CONTACT HOURS	
Master classes	Solving practical cases
15	5
NUMBER OF INDEPENDENT WORK HOURS	
Study of master classes	Solving practical cases
15	15
ECTS CREDITS : 2 (50,00 h)	

Calificaciones

GRADE EVALUATION AND CRITERIA

Evaluation Activities	Indicators	Evaluation weighting
Attendance and class participation	Regular attendance to class and active participation	10%
Client briefing of the legal strategy to face and try to solve a real estate M&A situation and construction dispute	<p>After explaining in class the main strategies to manage and resolve two real life cases on real estate M&A and construction law, each student will have to prepare individually two briefs pointing out his or her point of view on a real estate M&A situation and construction dispute in light of lessons taught during the subject.</p> <p>Around 2-3 pages length. A4-size paper, with 1.5 line spacing, and 11-point Times New Roman (on a Mac, Times)</p>	40%
Evaluation: closed-book exam (final)	<p>The exam is designed to prove that the student properly understands the questions, topics and materials studied in the course.</p> <p>First, there will be a set of facts of a real case law or a hypothetical case designed by the Professor. These facts will be related to topics studied during the module.</p> <p>Second, there will be 5 to 10 questions that relate to the facts above mentioned or that are in relation to them. The student will have to answer to those questions.</p>	50%
