METODOLOGÍA DOCENTE

Aspectos metodológicos generales de la asignatura

TEACHING METHODOLOGY

General methodology of the subject

Contact hours methodology : Activities

“Case study” approach – We will focus on particular transactions and categories of transactions to explore how themes develop.

Relevant tax concepts or statutory provisions will be discussed as relevant to each class, but the focus will be on understanding how such concepts affect structuring of the transaction and the evolution and development of such concepts across multiple transactions.

Attendance at class is compulsory.

Outside class methodology : Activities

Every student is required to attend the teaching sessions and to do the preparatory work. The Professor will provide the students with a syllabus comprising the most relevant materials (regulations and case-law) and a concrete schedule of review for these materials. In order to follow the presentation, it is advisable to have examined beforehand the relevant statutes and case-law, as well as relevant articles of doctrine to which the student is directed to for each session according to the bibliography provided.
